

International Eco-Industrial Networking Roundtable

Tuesday June 13, 2006
Halifax, NS Canada

*Held in conjunction with the
10th Annual Canadian
Pollution Prevention
Roundtable*

Registration Information:

- \$100 CDN (\$80 US) for non-members
- \$50 CDN (\$40 US) for current EIDC members
- FREE for new EIDC members who buy a three-year membership (\$500 US) before May 31, 2006
- \$25 CDN for students. Valid identification required

EIDC Roundtables provide an interactive forum for those working on eco-industrial projects across North America to exchange ideas, build on lessons learned, and gain expert advice for projects. Participants will explore **Eco-Industrial Development** in sessions dealing with the following topics:

EID in Atlantic Canada: an overview of some of the leading initiatives in Canada's Atlantic provinces;

Brownfield projects: making use of existing developed land as in the case of former military bases and old industrial sites;

The benefits of EID: quantifying the economic and environmental benefits of eco-industrial development;

Evaluating eco-industrial parks: developing criteria and standards by which to judge the success of eco-industrial parks;

Research innovation: facilitating partnerships among businesses and academic institutions to ensure that innovation is a part of EID;

Community energy: improving regional energy efficiency with initiatives such as district heating.

Featuring a Guided Eco-Industrial Tour of Burnside Industrial Park
